

# Palm Sunday Craft: Giving Thanks And Praise

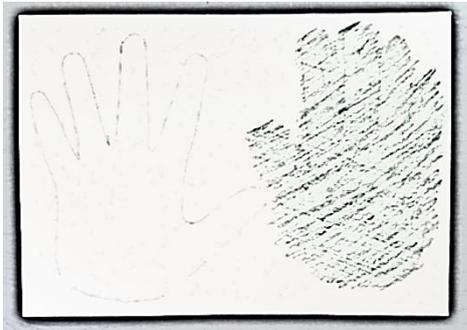

## Supplies:

- White or Green Paper
- Scissors
- Glue
- Black Marker
- Green coloured pencil
- Cardboard toilet roll (optional)

## Step 1:

Trace your hand several times on a sheet of paper (minimum 6 hands).

## Step 2:

If you are using white paper, colour inside the outlines of your hands, and then cut them out. If you are using green paper, simply cut out your hands.

## Step 3:

On one hand, write **“Praise God for . . .”** and then write 5 things about God you want to praise Him for - one for each finger. On another hand, write **“I am thankful for”** and then write 5 things you want to thank God for - one for each finger.

## Step 4:

Glue the hand together to make your own palm branch (see photo). You can cut the cardboard of a toilet roll into strips and glue them to the back, like a stem, if you want to make your palm branch more stable.

## Step 5:

Add to your branch each day this week by writing more things to be thankful for and give praise for on the empty fingers.
